# GEARRITO

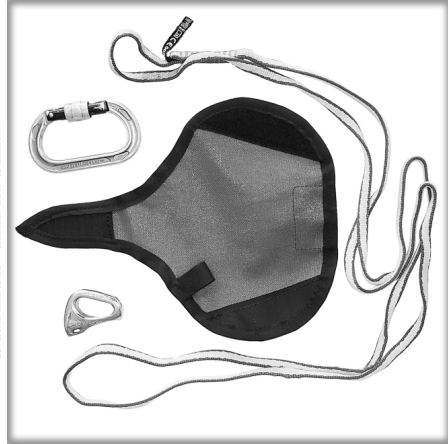

Harness-worn Protective Gear Cover  
For rapid deployment of self-rescue gear

BG-Gear.com

•Durable 1000D Nylon fabric •Weight: 0.9 oz / 26 g

## Gather all items

Gearrito, oval carabiner, double-length sling and ascender (Tibloc shown - others work too).

## Wrap the Gearrito

Wrap carabiner, sling and ascender in the Gearrito.

## Carry on Harness

Gearrito remains easily accessible while protecting sling and ascender from abrasion.

## Deploy for use

Open Gearrito to access ascender and sling. Hangs out of the way while in use.

For abrasion protection and rapid deployment of self-rescue gear, rig the Gearrito with one locking carabiner (oval works best), one double-length sling, and one ascender (Tibloc, Micro-Traxion, RollinLock, Ropeman, Basic, Croll, etc.) and store on harness.
